If entire tape is **not** to be copied, please tell us approximate start/end point in minutes from start of tape.

Tapes totaling over 120 minutes may have a slightly reduced quality to fit onto one disc.

Additional services available, such as insert layout & custom DVD chapter points, at additional cost.

* DVD discs will be scanned for errors prior to copying. If there are errors, a new master disc must be created using capture service at top of page.
